

Infinite Energy Center is committed to the health and safety of all clients, guests, staff, and community. Our management team has been closely monitoring all matters regarding the COVID-19 (Coronavirus) and we continue to meet daily. We are communicating and following all updates through the Centers for Disease Control and Prevention (CDC), Georgia Department of Public Health (DPH), and the Gwinnett-Rockdale-Newton County Health Department. The virus and protocols are changing quickly, and we are working to mitigate any impact on our clients, guests, and staff.

As a public facility, we recognize the risk of exposure to any illness due to the number of individuals in a mass gathering. Infinite Energy Center is exceeding all recommended procedures related to facility maintenance and are encouraging staff to perform beyond the general hygiene standards, as suggested. We are taking precautionary measures to increase the frequency in cleaning and enhancing disinfected procedures.

We encourage all clients, guests and staff to follow the CDC recommendations for general public to prevent the spread of the virus:

- Wash your hands often with soap and water for at least 20 seconds. If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol.
- Avoid close contact with people who are sick.
- Avoid touching your eyes, nose, and mouth.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.

COVID-19 is rapidly evolving, and guidance is subject to change. Please visit the following websites to stay informed:
